

Maple Wins Best Educational Software Awards for Maple 8 and Students' Web Site

WATERLOO, CANADA, April 21, 2003 – Maplesoft™, the leading source of mathematical software for educators, researchers and professionals, announces that Maple 8, Student Edition, has won in two categories in this year's Best Educational Software (BESSIE) Awards, Best Math software for High School and Best Math Software for Postsecondary Education. Maplesoft was also awarded a BESSIE for Best Educational Web Site in the Postsecondary Math category for www.maple4students.com.

The BESSIE Awards recognize the best educational software and Web sites available for use by parents, teachers and the general public. Winners, who best demonstrate innovation, richness in subject content and the capability of multi-level usage, are selected by the staff and editors of ComputED Gazette.
