

This is a title

Introduction

This is a short introduction that I am writing over several lines. The text will be as long as the width of one page and summarizes the intent of the calculation

Parameters

Length	$x := 4 \text{ m}$
Width	$y := 6 \text{ m}$
Height	$z := 4 \text{ m}$

Calculations

Surface area of one side	$\text{area}_1 := x \cdot y = 24 \text{ m}^2$
Volume of cuboid	$\text{vol} := x \cdot y \cdot z = 96 \text{ m}^3$
