Waterloo Maple Inc. Celebrates 10th Anniversary

Waterloo, Ontario Canada, April 20th, 1998

Waterloo Maple Inc., a global leader in the development of interactive mathematical solutions for educators and technical professionals, is proud to announce that the company is celebrating its 10th Anniversary, a significant milestone in any high-tech company.

Maple V, the company's flagship product, was originally developed at the University of Waterloo by Keith Geddes and Gaston Gonnet. The company was founded in 1988 and has grown from a five-person company to a world-class corporation with over 75 employees. Waterloo Maple products are now marketed internationally through hardware and software OEMs, distributors, dealers, direct sales, and publishing partners.

With the summer 1998 move into the Seagram Museum property, Waterloo Maple Inc. will continue to grow. The new location will accommodate double the number of employees while providing a world-class setting. The company is honored to be one of the driving forces behind the development of the Seagram's property and is proud to be the cornerstone of this community project.

Waterloo Maple Inc. is a leading producer of mathematical software technology. Over one million users currently use Waterloo Maple's mathematical technology. Its products include Maple V, MathView, and Expressionist. To compliment the product line, Waterloo Maple is a key distributor of the MathResource and Standard Math Interactive. Waterloo Maple Inc. also supplies other software companies with essential mathematical components for leading products such as Mathcad (Mathsoft, Inc.), MATLAB (The MathWorks), Standard Math Interactive (CRC Press), and Scientific Workplace (TCI Research). Over one million users currently access Waterloo Maple's mathematical technology. Over 300 universities and colleges around the world have site licenses for Waterloo Maple products.
